# ABOUT US

There are multiple matches for AI Global, including a media group, a company that specializes in engineering and technology, and an initiative that uses AI in healthcare. AI Global is a global online magazine publisher. Our mission at AI Global Media is to deliver information and insight to professionals and businesses throughout the world and to allow our clients to enhance their online presence and in turn grow their businesses.

## OPTIMIZES WORKFLOW AND PROCESSES

AI helps streamline business operations by identifying bottlenecks and inefficiencies. By analyzing patterns and workflows, AI can suggest improvements or implement automation to ensure smoother processes, enhancing operational performance.

## ENHANCES TIME MANAGEMENT

AI tools assist with organizing tasks, setting priorities, and managing deadlines. By automating task scheduling and reminders, AI ensures that teams remain on track, meet deadlines, and make better use of their time, leading to increased productivity.

# What is NFT

NFT stands for non-fungible token, which is a unique digital certificate of ownership for a digital or physical asset. NFTs are recorded on a blockchain, a decentralized public ledger that records transactions. Presently, no laws in India expressly regulate commercial dealing in NFTs. The only statutory reference is the Income Tax Act, 1961, which has been amended to include NFTs under the definition of virtual digital assets (VDAs). Income generated from trading in NFTs is consequently taxed at 30%
